

Bryan Fluech Biography

Bryan Fluech is the Florida Sea Grant Extension Agent for Collier County and has been in the position since 2006. His responsibilities include planning, developing, implementing, and evaluating comprehensive marine and natural resource educational programs that focus on marine fisheries, seafood safety and sustainability, environmental stewardship, and marine education. Examples of Bryan's extension work include developing local seafood industry tours to connect seafood consumers with their local markets, coordinating a

regional goliath grouper monitoring program to assist resource managers with their recovery efforts, organizing underwater clean up events on local reefs, running youth fishing camps, teaching the Florida Master Naturalist Program, instructing seafood safety and sustainability webinars and workshops, and organizing aquatic species collectors permit workshops for informal and formal educators.
