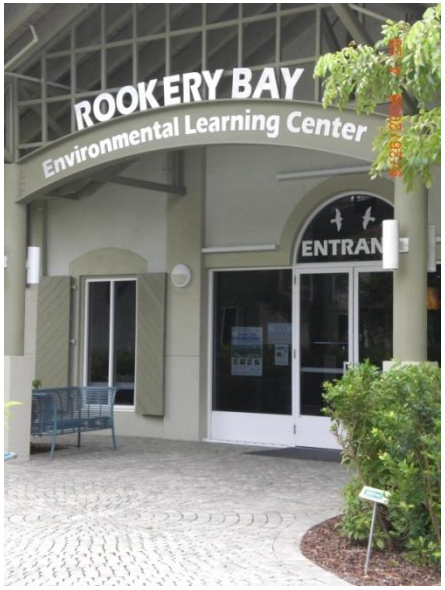
Tribute Brick Program for the Rookery Bay National Estuarine Research Reserve



Located at the northern end of the Ten Thousand Islands on the gulf coast of Florida, the Rookery Bay Reserve represents one of the few remaining undisturbed mangrove estuaries in North America.

An amazing world exists within the 110,000 acres of pristine mangrove forest, uplands and protected waters of Rookery Bay. Where rivers and streams meet the sea, a unique habitat is formed. A myriad of wildlife, including 150 species of birds and many threatened and endangered animals, thrive in the estuarine environment and surrounding upland hammocks and scrub found within the Reserve.

We invite you to remember loved ones, honor friends, and commemorate special occasions by purchasing personalized bricks. Your donation will help the Rookery Bay Reserve to support it's mission of coastal stewardship.

The mission of the Reserve is to provide a basis for informed coastal decisions through land management, restoration , research and education. The Reserve works in partnership with local communities to promote coastal stewardship.
