# INSTRUCTIONS

This training program is designed to increase the knowledge of the lawn and landscape professionals, and provide them with tools and skills to minimize the environmental impacts of non-point sources of pollution related to their business practices. It was jointly developed by Florida Department of Environmental Protection (FDEP), the University of Florida and the green industries. This training program is required by City of Naples [Ordinance 08-11972] for landscapers to work within Naples City Limits.
